IDENTIFIERS	*Indiana

ABSTRACT

The objectives of the study were to help high school seniors make occupational choices, develop their employment and educational plans, and to provide data for school personnel and for the planning of postsecondary vocational training activities. Approximately 50,000 Indiana high school seniors were surveyed as to their educational and employment plans and their vocational choices. The seniors were given lists of nearly 400 occupations, arranged in career clusters, together with lists of colleges, universities, and training institutions to suggest available options. The survey instrument used for seniors in three previous classes was revised and mailed to all Indiana high schools. Tabulated responses make up the bulk of the document and are presented in two parts, statewide survey results and survey results from each of Indiana's 14 planning and development regions. Principal areas covered by the survey included senior characteristics, characteristics of head of household, plans after graduation, career choices, college and university choices, and educational or training program choices. Other areas covered include student career interests, reasons for planning to delay or not to continue education, and educational financing methods. A sample copy of the survey package is appended. (Author/MF)

Documents acquired by ERIC include many informal unpublished materials not available from other sources. ERIC makes every effort to obtain the best copy available. Nevertheless, items of marginal reproducibility are often encountered and this affects the quality of the microfiche and hardcopy reproductions ERIC makes available via the ERIC Document Reproduction Service (EDRS). EDRS is not responsible for the quality of the original document. Reproductions supplied by EDRS are the best that can be made from the original.

INFORMATION SHEET

Introduction

The characteristics and plans of high school seniors have significant implications for counselors, teachers, administrators, researchers, and officials. These and other responsible people are desirous of knowing more about high school youth in order to do their jobs even better. Recognizing the importance of acquiring and presenting related data, a comprehensive survey was made of seniors' educational and employment plans, and their career (vocational) choices.

This study provided a timely opportunity for all seniors to review their plans and to establish meaningful goals. The imminency of graduation, a personal note to each senior, and the presence of a counselor or teacher provided a setting for a thoughtful and serious approach.

Alternative options available to seniors upon their graduation were suggested. Each participant was provided with a complete list of nearly 400 occupations - arranged conveniently into career clusters - and lists of colleges, universities, and training institutions together with their programs. A carefully designed instrument led the senior through a series of steps culminating in decisions marked on the questionnaire.

This report provides answers to questions such as: (1) What are the career choices of seniors? (2) What are their plans for immediate employment - or continuation of training or education after graduation? (3) Why did they make these choices? (4) Who helped them most - and what sources of information were most helpful? Pertinent and useful information about their characteristics is reported, such as grade average, course concentration (program "major"), sex, race, etc. Selected characteristics data about their heads of household are also presented.

Data and resulting highlights are presented in a manner designed to facilitate application of results. Included are (1) frequency counts (actual numbers of answers to each question, (2) percentage distributions, and (3) actual answer frequency counts expanded to represent the universe of all seniors. These data are presented for the State as a whole, followed by data for each of Indiana's fourteen Planning and Development Regions.

VT 102654

Conclusions and Recommendations

Information gleaned from teachers, counselors and students indicate the survey was very helpful to seniors. Data resulting from the survey, in computer print-out form, were provided expeditiously to all State supported colleges and universities, the Commission for Higher Education, the Department of Public Instruction and others.

It is recommended that copies of the attached report be disseminated to high school, college and university, and vocational training program counselors, teachers, officials and libraries. A series of articles published in appropriate media is also recommended.

These high school seniors' related data provide another milestone in the series started in 1966. Important discernable trends are developing; efforts should continue to acquire, analyze, and extend these data, and provide the results to administrators, educators, officials and researchers.

ACKNOWLEDGMENTS

This project was funded by the
INDIANA STATE BOARD OF
VOCATIONAL AND TECHNICAL EDUCATION
with
Indirect and administrative overhead costs provided by
PURDUE UNIVERSITY

The study was accomplished with the support of,
and in cooperation with, representatives from
THE STATE DEPARTMENT OF PUBLIC INSTRUCTION,
THE INDIANA COMMISSION FOR HIGHER EDUCATION,
BALL STATE - INDIANA STATE - INDIANA - PURDUE AND
VINCENNES UNIVERSITIES
and the
INDIANA VOCATIONAL TECHNICAL COLLEGE

Special appreciation is expressed to each of the nearly 50,000 high school seniors who completed survey forms - and to their counselors andteachers, school principals, and superintendents -- without whom this study could not have been done.

EDUCATIONAL AND EMPLOYMENT PLANS AND OCCUPATIONAL CHOICES OF INDIANA HIGH SCHOOL SENIORS IN THE CLASS OF '75

1. Objectives of the Study

The primary objectives of this study include:

A. Help high school seniors in making their occupational choices and developing their employment and educational plans. (This was accomplished by providing materials to each senior related to occupations, employment and educational alternatives, types and locations of educational institutions, and types of training and educational programs. Students kept these materials.)

B. Provide high school counselors, teachers and administrators with related data pertinent to their students.

C. Document selected characteristics of high school seniors and their educational and employment plans and occupational choices.

D. Report why seniors make certain choices or plans and the person or sources most helpful to them, and other pertinent information.

E. Identify selected characteristics of seniors' head of household.

F. Report these data to aid in the planning of post-high school vocational/technical training and educational programs in counseling activities, in resource allocation and other activities.

G. Provide the above data as reference points for further research, and to help extend the data concerning changes and trends already recorded for Indiana high school classes of '66, '69, and '72. 1/ 2/ 3/ 4/

2. Rationale and Methodology

Inasmuch as seniors in three previous classes had been surveyed with similar objectives in mind, it was decided to analyze the instruments used, and to design an improved and updated version. This was accomplished with the assistance of representatives of all State supported universities, the Indiana Vocational Technical College (IVTC), the Department of Public Instruction, and the Indiana Commission for Higher Education. The revised survey package was then pretested, modified as needed, and printed.

1/ ...See Selected Bibliography beginning on page 131.

All high school superintendents and principals were alerted to the project and their cooperation was solicited; arrangements were also made requesting the participation of Catholic and private high schools. Survey packages were then mailed to all Indiana high schools with sufficient materials for every senior to take part.

A "Complete survey approach" was necessary rather than applying a sample technique, in order to meet the stated objectives (helping all seniors and involving all high schools). It is believed this blanket approach will enhance the acceptability and utilization of the final results as well.

3. Survey Description

The survey "package" mailed to all Indiana high schools was made up of two parts. Part One began with a letter to each senior emphasizing the importance of planning and setting goals, a brief explanation of the opportunity the study provided and instructions in how to fill out the questionnaire. Part One also included three lists to be used in connection with answering certain questions: List A was a list of nearly 400 occupational titles, arranged in career clusters for convenience; List B reported all public supported colleges and universities in Indiana--and the cities they are located in; and List C contained training and education programs divided into two groups--the first, certificate or associate degree level programs, and the other, baccalaureate or higher level programs. Part One of the survey (letter and the occupational and educational related lists) was printed on yellow paper, and each senior was encouraged to keep these materials.

The second part of the survey package was a check (✓) type questionnaire printed on white paper for convenience. Twenty-six questions were asked which fell into the following groups:

(1) Characteristics of High School Seniors
- Sex
- Race
- Major Area of Study (Course Concentration)
- Grade Average
- Size of Home Community

(2) Characteristics of Head of Household
- Relationship
- Occupation
- Educational Level

(3) Seniors' Career (Occupational) Choice and Employment Plans
- Main Occupation or Career Chosen
- When Interest in Chosen Career Was Noted
- When Decision in Chosen Career Was Made
- Most Important Reasons for Choosing Particular Career
- Sources or Persons Most Helpful in Making Choice
- Hoped for Employment Locale
- Plans Within Six Months After Graduation
- Definitiveness of Career Choice and Plans

(4) Why Some Seniors DO NOT Plan to Further Their Education After Graduation from High School

(5) Why Some Seniors Plan to DELAY Continuing Their Education for Six Months or Longer After Graduation

(6) Information About Seniors Who DO Plan to Continue Their Formal Education Within Six Months After Graduation
- College or University Chosen in Indiana
- Other Training or Educational Institution Chosen
- Program Chosen
- Program Desired--But Not Available Locally
- Plans for Advanced Graduate or Professional Studies
- Reasons for Choosing a Particular School
- Location of School Chosen
- Methods Planned to Finance Education

A sample copy of the survey package is included as Appendix I.

4. Survey Package Mail-Out and Questionnaire Returns

Boxes of survey packages were mailed to a total of 425 public and private high schools. The total number of seniors in all of these schools, as could best be determined as of March, 1975, was 82,654. A summary of the mail-out and returns in presented in Table 1.

Survey Coverage

TABLE 1
SURVEY MAIL-OUT AND RETURNS

	Total Number	Number Responding	Per Cent Response
High Schools	425	354	83.3%
Seniors	82,654	49,663	60.1%

One reason for the disparity between the percentages of returns from high schools (83%) versus seniors (60%) is because some high schools did not distribute the questionnaires until after the first term ended, and some seniors had graduated mid-year. Another reason is that the Indianapolis Public School Corporation (IPSC) did not participate. This Corporation is made up of eleven high schools, including some of the largest in the State. The decision not to participate was due in part because of the

Corporation Board members' interpretation that the questionnaire data might be included under the provisions of the newly enacted "Family Education Rights and Privacy Act."

Note: Clarification of the fact that the seniors' questionnaires and resulting data were not encompassed by the Act was received on February 3, 1975 from the Deputy Assistant Secretary for Management Planning and Technology, of the U. S. Department of Health, Education and Welfare. 5/ This was conveyed immediately to the IPSC, which then elected to have local legal counsel review; as a result time ran out on March 10, 1975 and the survey was "closed."

5. Format of This Report

In addition to the foregoing explanatory sections (describing the objectives of the study, methodology, and the survey package), the main body of this report is made up of the responses to each question and is reported in two major parts:

Part I presents statewide survey results, and

Part II presents survey results for each of Indiana's Fourteen Planning and Development Regions. (See Figure 1 for map showing which counties are within each region.)

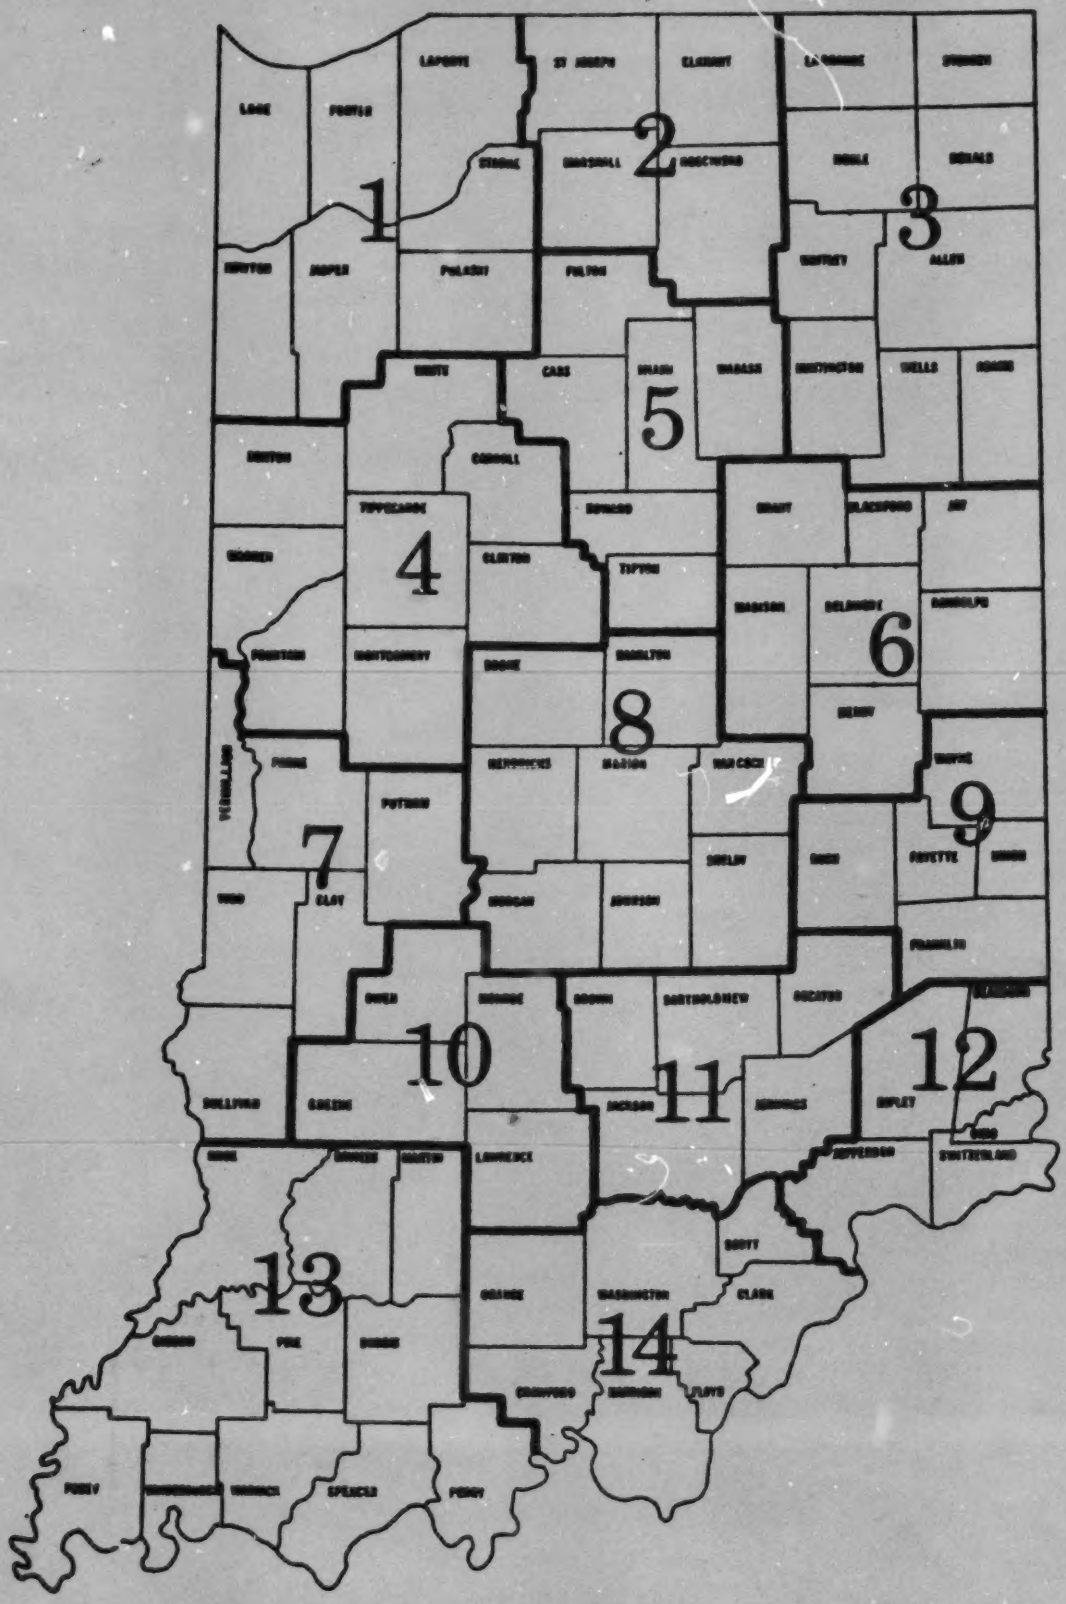
In both Part I and II the actual Statewide responses to each question are reported, together with the percentage distribution of every item within each question; these responses are then expanded to the universe (total) of all high school seniors by applying the appropriate coefficients of expansion. (Non-participants are assumed to have like characteristics as respondents.)

In Part II, data are presented for each of Indiana's fourteen planning and development regions described earlier. As a rule, the actual responses for every item within each question are shown on one page: these responses when expanded to the universe of all high school seniors in the particular region, are then shown on the facing page. (Non-participants are assumed to have like characteristics.)

FIGURE 1

Planning and Development Regions

State of Indiana



Highlights ...

PART I: SHOWING STATE-WIDE RESULTS

(PART II BEGINNING ON PAGE 57, PRESENTS RESULTS FOR EACH OF THE FOURTEEN PLANNING AND DEVELOPMENT REGIONS)

HIGHLIGHTS OF THE CHARACTERISTICS OF HIGH SCHOOL SENIORS

(See Table 2 on facing page for details)

★ **SEX DISTRIBUTION**

Of the 49,663 questionnaires returned, there were slightly more males (.5%) than females. This is consistent with previous studies.

● **RACE DISTRIBUTION**

The distribution or respondents by race is quite comparable to the estimated high school population distribution in Indiana. Slightly more than 87% reported they were Caucasion (White), 5.3% reported they were Black (estimate ≥ 7% Blacks in total State population), 1% Spanish-American and 1.3% were "Other." 5.2% opted not to answer this question. Interestingly, there was a reported Lilliputian and a Martian who participated!

✱ **MAJOR AREA OF STUDY**

More than one third of all seniors reported their course concentration was "College Preparatory" (35.2%), (this percentage has been decreasing slowly over the past few years). The next largest groups were "Business Education" at 19.4% and "General Education" at 18.7%. Current enrollment in Vocational Education was reported as 14%, (this percentage has been increasing slowly over the past few years).

□ **GRADE AVERAGE**

Grade averages ($\bar{x}$) reported represent a Bell curve skewed to the high side. The largest group of seniors (43%) reported they were B $\bar{x}$, this was followed by nearly 38% who were C $\bar{x}$, 11.4% at A $\bar{x}$, and 2.4% at D. There were 3.5% who said they didn't know what their grade average was and nearly 2% did not respond. There has been a slow but steady inflation (toward higher grades) reported over the past few years.

◀ **SIZE OF HOME COMMUNITY**

Fewer than 17% of all seniors reported the population of their home town or residence to be less than 1,000. The largest groups reported the size of their home community to be between 5,000 and 25,000 or ≥ 50,000. (The failure of the Indianapolis Public School Corporation to participate lowered the latter group's representation.)

NOTE: Related HIGHLIGHTS and tables are depicted by matching symbols.

Totals	49,663	100 %	82,654	

*Actual responses multiplied by 1.6643 coefficient of expansion; used to expand to the grand total for the State of 82,654 seniors.

HIGHLIGHTS OF THE CHARACTERISTICS OF SENIOR'S HEAD OF HOUSEHOLD

HEAD OF HOUSEHOLD RELATIONSHIP Fathers were reported as the head of household by 84% of the seniors, (this percentage has been decreasing slowly over the past few years). Nearly 11% reported Mother as head of household and 5% said Other or did not respond (these latter groups have been increasing over time).

EDUCATIONAL LEVEL The largest single group for highest educational level attained by head of household was High school graduate, > 42%; the next largest group was Less than high school graduate reported by nearly 20% of the seniors. More than 18% of the heads were reported to be college graduates. In the series of surveys conducted to date, the educational levels are higher in each subsequent survey.

Note: Nationally, in 1964, only 56% of the labor force had finished high school, including 11% who had graduated from college. By March 1974, about 69% of the labor force had completed 4 years of high school including about 15% who had completed 4 years of college. 6/

OCCUPATION: HEAD OF HOUSEHOLD The occupations of head of household are presented on the facing page (the CODE number corresponds to List A, Occupational Titles). The most frequently identified head of household occupations include:

Occupation	Number
Assembly or Production Worker in Factory	11,254
Farmer and Kindred	4,687
Engineers (all fields)	4,654
Foremen or Supervisor of Workers	4,316
Salesmen	4,286
Manufacturers' Products	1,656
Insurance/Real Estate	1,230
Others	1,400
Managers	4,035
Industrial	1,240
Retail/Wholesale	1,195
Others	2,600
Machine/Metal Related	3,446
Machinist/Millwright	2,067
Tool and Die Maker	845
Sheet Metal Worker	534
Driver: bus, truck...	2,925

Occupation	Number
Technicians/Tech.	2,524
Draftsmen	469
Electrical/Electronic	770
Other Types	1,285
Electricians	2,110
Personal Services Occup.	2,092
Health and Medical Related	2,020
Medical Professionals	775
Nurses (all levels)	655
Others	590
Construction Machinery Oper.	1,724
Teachers	1,588
Elementary or Spec.	525
Secondary	1,063
Carpenter/Cabinet Maker	1,536
Automobile & Diesel Mechanic	1,410
Accountant/Auditor	1,[illegible]8
Clerks	1,012
Secretaries, Stenographers and Related	1,010

In general, the occupational levels of the heads of household were lower than the career aspirations of seniors. Some examples of these differences include:

Occupation	Percentage Distribution: Heads of Household	Class of '75 Seniors
Assembly or Production Worker	13.6%	1.9%
Sales-persons	5.1	.9
Driver; Bus, Truck...	3.7	1.0
Construction	2.0	1.0
Carpenter	1.9	.7
Clerks	1.3	.9

After Graduation... What?

HIGHLIGHTS OF SENIORS' PLANS AFTER GRADUATION

(See Table 4 on facing page for details)

* SENIORS CHOSEN PLAN

The largest group of seniors (33.4%) planned to work full-time within six months after graduation (e.g. work full-time, no further education planned at this time (18.9%), plus 14.5% who plan to work full-time first, then further their education later). This trend for a higher proportion of seniors to work full-time after graduation has been evident for the past few years.

Nearly 31% plan to continue their education full-time; this percentage has been declining over the recent past. More than 13% plan to go to school part-time and work part-time, while 7% don't know what their plans are.

DEFINITIVENESS OF PLANS

Many seniors seemed to still be flexible in their plans; nearly 45% said their plans were "Almost definite," nearly 33% said their plans were "Indefinite," and 1% did not respond. Thus, more than one-third of the seniors were still very doubtful; fewer than 22% were "Quite definite" in their plans.

HOPED FOR EMPLOYMENT LOCALE

The largest single group of seniors (nearly 36%) had no preference as to employment locale; nearly 32% however, preferred to remain close to home. Slightly more than 20% apparently would like to leave Indiana.

Table 4
SENIORS PLANS AFTER GRADUATION

Response	Frequency of Responses: Number	Percent	State Totals by Extrapolation
✱ **SENIOR'S CHOSEN PLAN** Within six months after I graduate, I plan to:			Question 16
Work at a full-time job, no further education planned at this time	9,401	18.9%	15,646
Work at a full-time job first, then further my education	7,189	14.5	11,965
Continue my education full-time	15,214	30.6	25,321
Go to school part-time, work part-time	6,596	13.3	10,978
Go into military service	2,158	4.3	3,592

HIGHLIGHTS OF WHEN INTEREST WAS FIRST NOTED, AND WHEN DECISION WAS MADE ON CHOSEN CAREER OR OCCUPATION

(See Table 5 on facing page for data)

WHEN INTEREST IN CHOSEN OCCUPATION OR CAREER WAS NOTED

It appears from the data obtained in the survey of high school seniors, that more than 10% of them had noted an interest in a specific occupation or career while they were still in the elementary grades, and some 15% more noted an occupational interest while in junior high school. Nearly one-third said they noted an occupational interest during their freshman and sophomore years. Generally speaking then, about 60% of the seniors reported they had their first interest in a given occupation or career before they were juniors in high school, and interest was perceived by some in their early school years. (Occasionally one does meet a student who says "I always was interested in becoming a nurse--or engineer--or--.") Fewer than 2.5% of the seniors did not answer this question.

WHEN DECISION WAS MADE ON CHOSEN OCCUPATION OR CAREER

Nearly 46% of the seniors reported they made their occupational decision during their senior year, and an additional 26% had done so while they were juniors. Relatively few ($< 2\%$) seniors recalled they "decided" on an occupation or career in elementary grades--or while in junior high ($< 4\%$). Nearly 6% did not answer this question. This matches the 6% who did not answer the next related question--which identifies the most important reason for choosing a particular career.

Note: There is some growing evidence that many young people are becoming more occupation or career conscious over the recent past few years. Trends are developing which indicate that:

1. Proportionately more students are reporting they noted their first interest earlier in a given occupation or career,
2. Fewer seniors reported they had waited until their senior year, and
3. More seniors respond to (answer) these questions when asked.

TABLE 5
CHOOSING A CAREER OR OCCUPATION
(Time of First Interest and Decision)

Response	Frequency of Responses: Number	Frequency of Responses: Percent	State Totals by Extrapolation
WHEN FIRST INTEREST IN CHOSEN CAREER WAS NOTED I had my first interest in my chosen career or occupation while in:			Question 10
Elementary grades (1-6)	5,019	10.1%	8,353

HIGHLIGHTS OF REASONS FOR CHOOSING A PARTICULAR OCCUPATION OR CAREER
(See Table 5 on facing page for data)

MOST IMPORTANT REASONS FOR CHOOSING A PARTICULAR OCCUPATION OR CAREER

1ST MOST IMPORTANT

The most important reason for choosing a given occupation, selected by nearly 40% of all seniors, was "Activities on the job." This was followed by "Money" by 16% of the seniors, "Kinds of people I'll work with" by nearly 14%, and "Serving society" by nearly 9.5%. (Please read Note below.) Relatively few seniors reported that their friends or parents' opinion of the job--or working indoors were important reasons for their choice.

2ND MOST IMPORTANT REASON

When identifying the second most important reason for choosing a given occupation, the most popular choice is "Money" followed by "Kinds of people I'll work with," then "Activities on the job." A convenient comparison of the rank order comparison of choices follows:

	Frequency of Choice, Rank Ordered	
	Most Important Reason	Second Most Important Reason
Activities on the job	1st	3rd
Money	2nd	1st
Kinds of people I'll work with	3rd	2nd
Serving society	4th	4th

Note: Previous studies [4/] indicate that the reasons for students' occupational choices vary between groups. For example, percentages of seniors choosing certain occupations and the most important reasons for their choices were:

Students Choice	Activities on the job	Money	Kinds of people I'll work with	Serving society	Like to work outdoors	Status or prestige of job
Engineers	51%	22%	4%	5%	6%	6%
Teachers	42%	4%	29%	17%	1%	2%
Managers	43%	23%	14%	4%	3%	6%
Farm related	26%	5%	2%	2%	61%	1%

It is planned to determine these interrelationships for the Class of '75 and report them in a following study.

TABLE 5 Continued
CHOOSING A CAREER OR OCCUPATION

Reason	Frequency of Responses: Number	Frequency of Responses: Percent	State Totals by Extrapolation
MOST IMPORTANT REASONS FOR CHOOSING PARTICULAR CAREER			Question 12
1st Most Important:			
Activities on the job	19,654	39.6%	32,710

Totals	49,663	100 %	82,654

HIGHLIGHTS OF SOURCES OR PERSONS MOST HELPFUL TO HIGH SCHOOL SENIORS, IN MAKING THEIR CAREER CHOICE

(See Table 5 on facing page for details)

SOURCES OR PERSONS MOST HELPFUL IN MAKING CHOICE

1ST MOST HELPFUL

Seniors reported that "Parents or other relatives" were most helpful to them in making their career choice (nearly 33%). This was followed by a cluster of choices, each chosen by about 10% of the seniors, including "Friends," Previous work experience," "High school courses," and "High school teachers."

2ND MOST HELPFUL

Interestingly, although the percentages of seniors selecting each choice were different, the rank orders of the 1st and 2nd most helpful sources or persons are the same.

Note: The actual listing of choices used on the questionnaires is the same as shown on the facing page in Table 5.

A convenient comparison of the rank orders of both 1st and 2nd Most Helpful Source or Person follows:

Choice	Frequency of Choice, Rank Ordered
Parents or other relatives	1st
Friends	2nd
Previous work experience	3rd
High school courses	4th
High school teachers	5th
Printed materials	6th
School guidance counselor	7th
School programs	8th
TV and Radio	9th
Career information systems	10th

HIGHLIGHTS OF SENIOR'S MAIN OCCUPATION OR CAREER CHOICE

(See Table 6 on facing page for details)

SENIOR'S OCCUPATION OR CAREER CHOICE

One of the major objectives of this project is to assist seniors in deciding on an appropriate occupation or career and in making sound related educational and employment plans. To help in this endeavor, a list of approximately 350 occupations was provided to each senior for his or her use (list was kept by seniors for future reference).

The following is a rank order recap of the most popular (most frequently chosen) occupations, arranged first by major career areas, then by specific occupations chosen by 1,000 or more seniors. Details are shown in Table 6 beginning on facing page.

MOST POPULAR CAREER AREAS, ≥ 1,500 SENIORS

Rank	Occupation	# Seniors	Rank	Occupation	# Seniors
1st	Health Related	11,742	7th	Art, Acting & Music (not Teachers)	2,229
2nd	Clerical*	6,168	8th	Managers	2,146
3rd	Teachers, All levels	6,131	9th	Technicians (Technical)	2,002
4th	Agric. & Farming rel.	4,407	10th	Computer related	1,918
5th	Engineering (all fields)	3,604	11th	Apprenticeship	1,576
6th	Law & Enforcement	3,049	12th	Social Services rel.	1,505

*Includes secretaries, clerks & typists

MOST POPULAR OCCUPATIONAL CHOICES, ≥ 1,000 SENIORS

1st	Secretary or Stenographer	5,216	8th	Factory or Production Worker	1,541
2nd	High School Teachers (all fields)	3,693	9th	Lawyer	1,508
3rd	Accountant or Auditor	3,069	10th	Policeman/Detective	1,395
4th	Registered Nurse	2,380	11th	Physician, M.D.	1,339
5th	Automobile Mechanic	2,222	12th	Beautician, Cosmetologist	1,115
6th	Housewife	1,794	13th	Elementary Education Teacher	1,103
7th	Farmer	1,656			

Special Note: There are still some unrealistic career aspirations of many seniors, e.g., 917 planned to become Airline Hostesses; 835 chose Artist or Sculptor (not a Teacher), 776 wanted to be Musicians, and 617 planned to be an Actor, Actress, Dancer or Entertainer. However, the career plans and occupational choices of high school seniors in general are more readily attainable and realistic than those of under-classmates; this is reported in MANPOWER REPORT 73-5, "Occupational Choices of High School Sophomores and Juniors, Compared With Seniors." 7/

HIGHLIGHTS OF REASONS WHY SOME SENIORS DO NOT PLAN TO ENROLL IN AN EDUCATIONAL PROGRAM AFTER GRADUATION

(See Table 7 on facing page for data)

SENIORS NOT PLANNING TO ENROLL IN AN EDUCATIONAL PROGRAM AFTER GRADUATION FROM HIGH SCHOOL

A total of 29% of the seniors answered this question: this is consistent with the seniors' answers to Question 16 concerning their plans after graduation, wherein 18.9% said they planned to work full-time, no further education; 4.3% were going into military service; 3.4% were getting married and not going on with school; and 2.4% did not respond, all of which also totals 29%.

The most frequently chosen reasons for not continuing their education were "I plan to look for a job" and "I already have a job arranged" (12.3%). These were followed by those undecided what to do and those not interested in continuing their studies (4.3% and 4% respectively). 3.7% said they planned to get married (this articulates well with Question 16 wherein 3.4% said they planned to get married with no further education planned at this time. 1.5% said the reason they were not continuing was because they did not have enough money: these particular students were asked to identify the financial aid sources they knew about--which are reported next.

$ FINANCIAL AID SOURCES KNOWN BY STUDENTS NOT CONTINUING THEIR EDUCATION BECAUSE OF LACK OF MONEY

The data indicate that most all of those not continuing their education for lack of funds (1.5% of all seniors) did know about grants or scholarships from the State Scholarship Commission of Indiana (1.3%). However, this is inconsistent with the response of 1% of the seniors who said they did not know of any sources of financial aid. Manifestly, some students answered this question who should not have done so. (An additional computer sweep may be run limiting the frequency count to those 748 seniors who said "I don't have enough money"...(to continue their education)...as noted in the preceding question.)

It does appear in general that relatively few (1.5%) of the students report they are not continuing their education because they lack the money--and most of those who so report--are knowledgeable about financial aid sources.

TABLE 7
REASONS WHY SOME SENIORS DO NOT PLAN TO ENROLL IN AN EDUCATIONAL PROGRAM AFTER GRADUATION

(One Reason Chosen)	Frequency of Responses: Number	Frequency of Responses: Percent		State Totals by Extrapolation
SENIORS NOT PLANNING TO ENROLL IN AN EDUCATIONAL PROGRAM AFTER GRADUATION FROM HIGH SCHOOL I do not plan to enroll in an educational program after graduation because:				Question 17
I plan to look for a job	3,576	7.2%		5,952
I already have a job arranged	2,532	5.1		4,214
I plan to get married	1,851	3.7		3,081
I am not interested at this time	1,992	4.0		3,315
I am going into military service	1,040	2.1	29%	1,731
I am undecided what to do	2,140	4.3		3,562
My grades are low	426	.9		709
There's no local school that I want	74	.1		123
I don't have enough money*	748	1.5		1,245
Non-response	35,284	71.0		58,723
Totals	49,663	100 %		82,655

(Multiple Choices Reported)

FINANCIAL AID SOURCES KNOWN ABOUT *If you indicated that not having enough money was the most important reason for not continuing your education, which of the following sources of financial aid do you know about:			Question 17a
Grant or scholarship from the State Scholarship Commission of Indiana	622	1.3%	1,035
Basic Educational Opportunity Grant	293	.6	488
Grant scholarship or loan from educational institution	299	.6	498
Educational loan from bank or lending institution	418	.8	696
I do not know about any sources of financial aid	521	1.0	867
ROTC Scholarship	318	.6	529
Aid from a private sponsor, such as parent's employer, local service clubs, foundations, etc.	419	.8	697
Other	265	.5	441

HIGHLIGHTS OF THE PLANS OF SOME SENIORS TO DELAY CONTINUING THEIR EDUCATION TO SOME LATER DATE

(See Table 8 on facing page for details)

There were 18.5% of the seniors who responded to this question, (Indicating they planned to delay their education or training for six months or longer). The most popular reason for the delay, identified by 6.5% of the seniors, was "I want to earn some money first." This was followed by 6% who wanted more time to decide what to do (this represents nearly 5,000 seniors--who possibly could have been helped more in making their decision while still in high school). Nearly 2.5% wanted to gain some work experience first and fewer than 2% planned to go into military service and then continue their education later. More than 1% said that getting married first would delay their education and nearly 1% did not identify the specific reason for delay.

In previous surveys, seniors were asked simply whether or not they planned to continue their education after graduation from high school. But in this survey, three distinctions were made: (1) if the senior had no plans to continue education after graduation, (2) if he (she) planned to delay continuing education for six months or longer after graduation--or (3) if he (she) planned to continue education within six months after graduation.

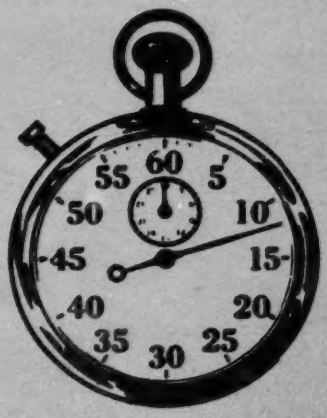
The breakouts of responses in each of these categories follow:

Situation	Seniors	
	Number	Percent
Seniors who do not plan to continue their education after graduation from high school (Table 7)	23,951	29.0%
Seniors who plan to delay continuing their education for six months or longer after graduation* (Table 8)	15,296	18.5%
Seniors who plan to continue their education within six months after graduation from high school (Tables 9 and 10)	45,872	55.5%
	85,119	103.0%*

*Note: At least 3% of those seniors who planned to delay their education or training for six months or longer identified their (delayed) choices; (therefore these are included in both Tables 9 and 10).

TABLE 8
REASONS WHY SOME SENIORS PLAN TO DELAY CONTINUING THEIR EDUCATION

Reason	Frequency of Responses: Number	Frequency of Responses: Percent	State Totals by Extrapolation
I plan to delay continuing my education to some later date for six months or longer after graduation because:			Question 18
I want to earn some money first	3,207	6.5%	5,337
I want to gain some work experience	1,169	2.4	1,946
I want more time to decide what to do	2,972	6.0	4,946
I want to go into military service first	789	1.6	18.5% 1,313
I want to get married first	596	1.2	992
Other	455	.9	757
Non-response	40,472	81.5	65,358
Item Discards	3	0	5
Totals	49,663	100 %	82,654



HIGHLIGHTS OF CHOICES OF COLLEGES AND UNIVERSITIES IN INDIANA

(See Table 9 beginning on facing page for details)

Nearly 46% of all seniors planned to attend some college or university within six months after graduation from high school. This includes about 31% who plan to attend full-time, 13.3% who plan to attend part-time with the remainder still in doubt (see Table 4). Another 10% planned to continue their training or education in a business or vocational school, apprenticeship program, or "other." More than 45% said they either did not plan any further training or education or planned to delay same for six months or longer.

The breakout of major categories is summarized below:

Type of Institution--(Seniors Plan to Attend)		Seniors Planning to Continue: Number	Percent
Indiana State Supported College or University			
Indiana University (all campuses)		8,918	10.8%
Purdue University (all campuses)		7,282	8.8
Ball State University		3,663	4.4
Indiana State University (both campuses)		2,556	3.1
Indiana Vocational Technical College		2,074	2.5
Vincennes University		1,207	1.4
(Indiana State Supported)	Sub-Total$_1$	25,700	31.0%
Private College or University in Indiana		6,036	7.5%
College or University Out-of-State		5,768	7.0
(All Colleges and Universities)	Sub-Total$_2$	37,504	45.5%
"Business School"		2,373	2.9%
"Vocational School"		3,379	4.1
Apprenticeship Program		975	1.2
"Other" Education or Training		1,531	1.9
(All Seniors Planning to Continue Their Education or Training Within 6 Months After Graduation)	Sub-Total$_3$ (Cumulative)	45,772	55.5%*
Balance of Class of '75-- (Who...)			
Do not plan any further education (Ques. 17)		23,951	29.0%
Plan to delay further education six months or longer (Ques. 18)		15,296	18.5*
	GRAND TOTALS	85,019	103.0%

*Note: At least 3% of those seniors who planned to delay their education or training for six months or longer, also identified their choice (which was not according to instructions), as a result they are included twice in the above count.

Totals	49,663	100 %		82,654

HIGHLIGHTS OF SENIORS' CHOSEN EDUCATIONAL INSTITUTION OTHER THAN A COLLEGE OR UNIVERSITY IN INDIANA
(See Table 10 above for details)

OTHER EDUCATIONAL OR TRAINING INSTITUTION CHOSEN

A total of 17% of all seniors indicated they planned to attend an educational institution other than a college or university in Indiana. Seven percent planned to attend an out-of-state college or university. Another ~ 3% planned to attend a "Business school" and more than 4% planned to attend some "Vocational school." More than 3% were planning to go into an apprenticeship or "Other" program.

SPECIAL NOTE: COMPARISON OF COLLEGE BOUND YOUTH: INDIANA WITH NATIONAL SITUATION

INDIANA As explained in the Highlights of Table 9, there were 45.5% of all Indiana seniors in the Class of '75 who identified a college or university they planned to attend after graduation from high school. An additional 2.9% said they planned to attend a "Business school," and 1.9% said they planned some "Other education or training."

On the National level, of the 3.1 million youth who graduated from high school during 1974, almost half (47.5%) were enrolled in college the following October; the proportion for Blacks was not significantly different from that for Whites. The overall number and proportion of new graduates enrolled in college were about the same as in 1973, as were their labor force participation and unemployment rates. The following presentation presents these National data.8/

College Enrollment and Labor Force Status of 1974 High School Graduates, October 1974 (National)

Characteristic	Civilian Noninstitutional Population	
	Number	Percent
(Numbers in thousands)		
Both sexes, total	3,101	100.0%
White	2,736	88.2
Negro and other races	367	11.8
Enrolled in college	1,474	47.5
Full-time	1,355	43.7
Part-time	119	3.8
Not enrolled in college	1,627	52.5

Thusly, it appears there is a reasonably comparable situation in Indiana and the National situation, insofar as new high school graduates going on to college.

With regard to employment and unemployment of those new high school graduates (nationally) not enrolled in college in October 1974, 9 out of 10 men and almost 8 out of 10 women were in the labor force. However, no more were employed than a year earlier; the number unemployed increased by 68,000. Among both White and Black recent graduates, the proportion unemployed was substantially higher than in 1973.8/

HIGHLIGHTS OF CHOSEN EDUCATION OR TRAINING PROGRAMS

(See Table 11 beginning on facing page for details)

BACHELOR OR HIGHER DEGREE, CHOSEN FIELD OF STUDY

More than 28% (23,375 seniors) identified baccalaureate level programs of their choice.

The rank order of the most popular educational programs at this level include:

Rank Order	Field of Study (≥ Bach.°)	Seniors Selecting Field	
		Number	Percent
1st	Health or Medical Related	3,026	3.7%
2nd	Education	2,458	3.0
3rd	Business or Commerce	2,062	2.5
4th	Engineering	1,974	2.4
5th	Law	1,420	1.7
6th	Fine and Applied Arts	1,233	1.5
7th	Biological and Life Sciences	1,058	1.3

Note: In general, the rank order and distribution within these fields articulate favorably with the related occupational and career area choices reported earlier. The comparative percentages are lower in this educational program listing because more than 18% of the seniors plan to delay re-entering school and others are still somewhat undecided in their plans.

ASSOCIATE DEGREE OR CERTIFICATE LEVEL PROGRAMS

Nearly 19% of all seniors (15,571) identified programs of their choice at this level--the rank order and percent of seniors choosing the six most popular areas of study are shown first, followed by the ten most popular "individual" programs.

Rank Order	Area of Study (< Bach.°)	Seniors Selecting Field	
		Number	Percent
1st	Health and Medical Support	4,378	5.2%
2nd	Technicians (technical types including medical)	3,064	3.7
3rd	Secretarial	1,375	1.7
4th	Accounting	1,338	1.6
5th	Data processing and computers	847	1.0
6th	Public service related	832	1.0
	Ten Most Popular Programs (< Bach.°)		
1st	Nursing (R.N., L.P.N.'s, Aides)	1,719	2.1
2nd	Secretary	1,375	1.7
3rd	Accounting	1,338	1.6
4th	Medical support; variety of assistants or aides	1,230	1.5
5th	Automotive and Diesel Technology	722	.9
6th	Business Management	702	.8
7th	Electrical/Electronics Technology	578	.7
8th	Dental support (Asst., Hygienist, Lab. Tech.)	587	.7
9th	Law Enforcement and related	444	.5
10th	Commercial Art & Industrial Illustration	383	.5

HIGHLIGHTS OF EDUCATIONAL AND TRAINING PROGRAMS WANTED-- BUT NOT AVAILABLE LOCALLY

(See Table 12 on facing page for details)

Generally speaking, a small percentage of seniors identified specific educational or training programs they would like to attend--but were not available locally. Only 3.2% of the seniors identified such programs ≥ Bachelors level and 4.9% of the seniors identified such programs ≤ Assoc.° or Certificate level.

"TEN MOST WANTED" BACHELOR OR HIGHER DEGREE PROGRAMS, BUT NOT AVAILABLE LOCALLY:

Rank Order	Program	Seniors Concerned	
		Number	Percent
1st	Health or Medical Related	245	.3%
2nd	Engineering	210	.3
3rd	Business or Commerce	176	.2
4th	Technology (elec., mfg., constr.)	158	.2
5th	Agriculture	151	.2
6th	Law	148	.2
7th	Architecture	145	.2
8th	Education	133	.2
9th	Fine and Applied Arts	125	.2
10th	Psychology	125	.2

"TEN MOST WANTED" ASSOCIATE DEGREE OR CERTIFICATE LEVEL PROGRAMS

Rank Order	Program	Seniors Concerned	
		Number	Percent
1st	Automotive and Diesel Technology	271	.3%
2nd	Medical Support (Assts., Aides, Techn.)	270	.3
3rd	Nursing (R.N., LPN, and Aides)	221	.3
4th	Business	206	.2
5th	Secretarial	195	.2
6th	Electrical and Electronics	195	.2

HIGHLIGHTS OF PLANS TO ENGAGE IN GRADUATE OR PROFESSIONAL STUDIES

(See Table 13 on facing page for details)

PLANS FOR GRADUATE (ADVANCED) OR PROFESSIONAL STUDIES

There were 47.5% of all seniors who answered this question (~ 30% said Yes and nearly 18% said No to planned graduate level study). This articulates very well to the total of 47.4% who said they planned to attend an identified college or university (45.5%) and "other" educational endeavor (1.9%).

The fact that nearly 30% of all seniors plan to undertake advanced studies may be somewhat ambitious--as this represents almost two-thirds of the total college-bound group.

HIGHLIGHTS OF REASONS GIVEN BY SENIORS FOR CHOOSING A PARTICULAR SCHOOL
(See Table 14 on facing page for details)

1ST MOST IMPORTANT REASON

There is little question what the single most popular reason is for a senior selecting a given school: it is "Offers what I want to study"--this first choice was made by nearly 20,000 seniors (24.2%). The next most popular choice, falling off to 9% of all seniors, was "Location near home." Thusly, these two reasons are the prime considerations for the choices of well over half of the seniors who plan to continue their graduation after high school. All remaining reasons were chosen by fewer than 4% of all seniors in each case.

2ND MOST IMPORTANT REASON

Again, the two most important choices for choosing a particular school were "Location near home" and "Offers what I want to study" (albeit in reverse order to above). These in turn were followed closely by "Reputation or prestige of school" and "Amount of tuition." A convenient comparison of the rank orders follow:

REASONS FOR CHOOSING A PARTICULAR SCHOOL

Reason	Rank Order: Most Important	Rank Order: 2nd Most Important
Offers what I want to study	1st	2nd
Location near home	2nd	1st
Amount of tuition	3rd	4th
Reputation or prestige of school	4th	3rd
Size of school	5th	5th
Preference of parent or relative	6th	7th
Friends or classmates plan to attend	7th	6th
Counselor or teacher suggestion	8th	8th

TABLE 14

HIGHLIGHTS OF THE LOCATION OF SCHOOL CHOSEN AND METHODS PLANNED TO FINANCE EDUCATION

(See Tables 15 and 16 on facing page for details)

LOCATION OF SCHOOL CHOSEN

As stated earlier about 55% of all seniors planned to continue their education or training within six months after graduation (see Table 9). Nearly 52% of all seniors answered this question identifying the location of their chosen school; more than three-fourths of this group selected a school located in Indiana, while some had not yet decided. The 7.2% of all seniors who said the location of their chosen school was "Outside of Indiana," articulates well with results of Question 10 wherein 7.0% said they planned to attend a college or university out-of-state.

METHODS PLANNED TO FINANCE EDUCATION

Seniors were asked to identify all of the ways in which they planned to pay for their education. The data indicate that well over half of the seniors continuing their education planned for financial support from their parents or family. 4½ percent of the seniors (3,700) reported they did not know how they would finance their education. The rank order and percentage of seniors choosing each method are shown below: (multiple choices were reported).

Method	SENIORS' SELECTIONS	
	Rank Order	Percentage*
Parents or family support	1st	28.3%
Scholarship or grant	2nd	17.4%
Personal savings	3rd	16.1%
Part-time employment while at school	4th	13.7%
Full-time employment during summer	5th	12.8%
Loan from educational institution	6th	5.1%
Unknown	7th	4.5%
Loan from bank or other source	8th	4.4%
Other	9th	2.2%

Percentage shown is for all seniors in the Class of '75 (..% must be doubled for approximation of only those seniors continuing their education (as nearly half the seniors do not plan to continue their education or training upon graduation).

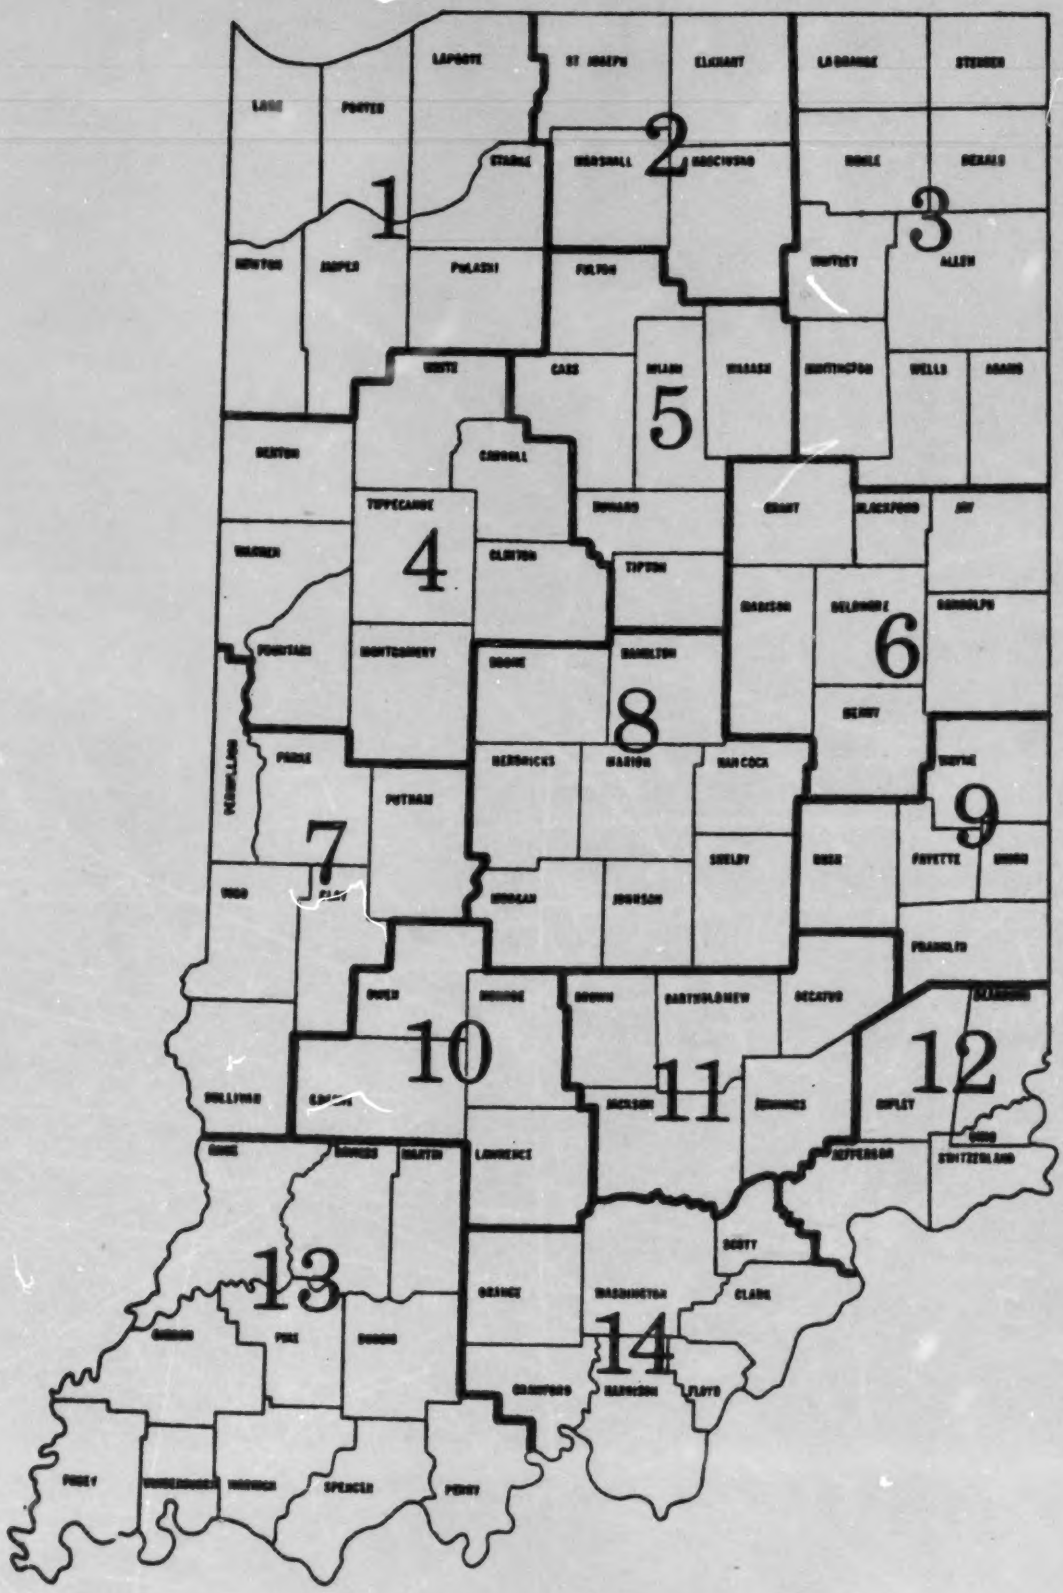
FIGURE 1

Planning and Development Regions

State of Indiana



PART II
SURVEY RESULTS FOR EACH OF INDIANA'S FOURTEEN PLANNING AND DEVELOPMENT REGIONS
(See facing page for map illustrating which counties are included within each Region)

There was excellent participation of most high schools in every Region except for Regions 8 and 11. As explained on page 3, the Indianapolis Public School Corporation (Marion County - Region 8) did not participate in the survey. A recap of the number of high schools and seniors in each Region, and their participation rates, are shown in Table 17 below:

TABLE 17
PARTICIPATION BY REGIONS

EXPLANATORY NOTE RE PART II

The following pages present data separately for each of Indiana's Fourteen Planning and Development Regions. Shown for every question are both the actual responses received and the responses expanded to the "universe" of each region. The "universe" represents the possible frequency count if all high school seniors had participated, and assumes that the non-participants have the same characteristics and plans as do the respondents.

APPENDIX I

SAMPLE COPY OF SURVEY PACKAGE

Made up of two major parts:

PART I (Printed on yellow paper; retained by each senior) Included:

Letter of encouragement to seniors, and instructions

List A - Occupational Titles

List B - Colleges and Universities in Indiana

List C - Education and Training Program

PART II Questionnaire (Printed on white paper, and returned for data processing)

EDUCATIONAL AND EMPLOYMENT PLANS AND OCCUPATIONAL CHOICES OF INDIANA HIGH SCHOOL SENIORS IN THE CLASS OF '75

Dear Senior:

What do you plan to do when you graduate?

The time is nearly here when you must firm up your plans and decide what you want to do after graduation.

We believe that completing this questionnaire will help you in making your decisions by:

(1) Reminding you of the many occupational opportunities there are,

(2) Presenting alternative actions you might want to take, and

(3) Identifying the many training or educational institutions and programs that are available, should you decide to continue your studies.

Remember that your chances of success are much better when you make good plans, set your goals, and keep them in mind.

Your questionnaire is printed on white paper. Please fill it out carefully. The yellow sheets have three lists to be used with the questionnaire. They are

LIST A Occupational Titles,
LIST B Colleges and Universities in Indiana, and
LIST C Education and Training Programs.

You are welcome to keep these lists after you complete the questionnaire and turn it in.

We need your answers to help us plan future programs and facilities, and to strengthen existing ones. Your name is not requested on the questionnaire as all answers are confidential.

Please cooperate so we can both benefit from our efforts.

Many thanks!

Dr. J. P. Lisack
Purdue University, SCC-A
W. Lafayette, IN 47907

This Survey is Sponsored by the

INDIANA STATE BOARD OF
VOCATIONAL AND TECHNICAL EDUCATION

IN COOPERATION WITH

THE STATE DEPARTMENT OF PUBLIC INSTRUCTION,
THE INDIANA COMMISSION FOR HIGHER EDUCATION,
BALL STATE – INDIANA STATE – INDIANA – PURDUE AND
VINCENNES UNIVERSITIES

AND THE

INDIANA VOCATIONAL TECHNICAL COLLEGE

LIST A

OCCUPATIONAL TITLES

Please use this list when you answer question 6 on your questionnaire where you identify the occupation of the head of your household – and question 8 where you identify your own chosen occupation.

All occupations are numbered and are listed alphabetically except for those arranged in special groups for your convenience. Shown together are all Agricultural Related Occupations, Apprentices, Engineers, Health or Medical Related Occupations, Teachers, and Technicians in the Engineering or Science Fields. (Technicians usually require about 2 years of post-high school training or education, such as in an Associate Degree Program.)

Review this list carefully, find the occupation you are looking for and enter the corresponding three digit code number in the blank provided on the questionnaire.

You are welcome to keep these lists when you complete your questionnaire.

CODE	OCCUPATION
101	Accountant or Auditor
102	Actor, Actress, Dancer or Entertainer
103	Advertising Agent or Related Occupation
	AGRICULTURAL RELATED OCCUPATIONS
104	Agricultural Engineer
105	Agronomist or Geneticist
106	Animal Technician (Veterinarian Assistant)
107	Conservationist, Soil or Range Manager
108	Farmer; General, Speciality Crop, Dairy or Fruit
109	Forester
110	Horticulturist
111	Veterinarian
112	Airline Hostess or Steward(ess)
113	Airplane Mechanic (See Technicians)
114	Announcer or Broadcaster, Radio or TV
	APPRENTICES
115	Carpenter Apprentice
116	Electrician Apprentice
117	Metal Working Apprentice
118	Plumber or Pipe-fitter Apprentice
119	Printing Trade Apprentice
120	Other Construction Trade Apprentice
121	Other Apprentice (Not listed)
122	Architect
123	Artist or Sculptor (Not a Teacher)

125	Athlete or Sports Official (Not a Teacher)
126	Attendant, Service Station (Not Automobile Mechanic)
127	Author, Journalist or Reporter
128	Automobile Mechanic or Repairman
129	Barber
130	Bartender
131	Beautician, Beauty Operator or Cosmetologist
132	Biologist (Not a Teacher)
133	Bookkeeper
134	Brick and Stone Mason or Tile Setter
135	Building Con tractor
136	Buyer or Purchasing Agent
137	Cabinet Maker
138	Carpenter
139	Cashiers, Retail Stores and Banks (See Clerks)
140	Cement Mason or Worker
141	Chemist (Not a Teacher)

CODE	OCCUPATION
142	Clergyman; Minister, Priest, or Rabbi
143	Clerks (incl. File, General, Sales, Post-office, or Special Clerks; does not include Cashiers who handle customer payments)
144	Commerical Artist or Industrial Illustrator
145	Computer Analyst or Scientist
146	Computer Key-punch or Data Typist
147	Computer Operations Manager
148	Computer Programmer
149	Computer or Related Equipment Operator
150	Construction Machinery Operator
	Construction Worker (See Brick Mason, Building Contractor, Carpenter, Cement Mason, Painter or Plumber)
151	Cook or Chef
	Dental Occupations (See Health Related Occupations)
152	Diesel Mechanic
153	Dietician
	Doctors (See Health Related Occupations)
154	Dressmaker or Seamstress (See Tailor)
155	Draftsman (See Technicians)
156	Driver, Bus or Taxi
157	Driver, Truck or Routeman
158	Economist (Not a Teacher)
159	Embalmer or Undertaker
160	Electrician (Also see Apprentices and Technicians)
161	Electronics Repairman, Radio or TV (See Technicians)
	ENGINEERS
162	Aeronautical or Astronautical Engineer
104	Agricultural Engineer
163	Biomedical Engineer
164	Chemical Engineer
165	Civil Engineer
166	Construction Engineer
167	Electrical Engineer
168	Environmental Engineer
169	Industrial Engineer
170	Mechanical Engineer
171	Metallurgical Engineer or Metallurgist
172	Mining or Petroleum Engineer
173	Nuclear Engineer
174	Sanitary Engineer
175	Undecided Field in Engineering
124	Factory Worker, Assembly or Production Worker
176	Fireman or Fire Fighter; Paid, not Volunteer

CODE	OCCUPATION
177	Foreman or Supervisor of Workers
178	Geo-scientists; Geologist or Geophysicist (Not a Teacher)
179	Guidance Counselor or Student Advisor
	HEALTH RELATED OCCUPATIONS
	Dental Occupations
180	Dental Assistant
181	Dental Hygienist
182	Dental Laboratory Technician
183	Dentist
	Medical Practitioners
184	Chiropracter
185	Optometrist
186	Osteopath Physician
187	Physician, General Practice
188	Physician, Specialized Practice
189	Podiatrist (Foot Specialist)
111	Veterinarian
	Medical Related Technicians* and Assistants
106	Animal Technician (Veterinarian Assistant)
190	Electrocardiograph Technician
191	Electroencephalograph Technician
192	Hospital Ward Clerk
193	Hospital Worker, Not otherwise listed
194	Medical Artist
195	Medical Assistant
196	Medical Laboratory Technician or Assistant
197	Medical Record Technician or Clerk
198	Medical Secretary
199	Mental Health Technician (See Nursing Aide)
200	Operating Room Technician
201	Optometric Assistant
202	Physician's Assistant
203	Radiologic (X-ray) Technician
204	Other Medical Technician or Assistant, Not listed
	*Technicians usually require about two years of training after graduation from high school
	Nursing Occupations
205	Registered Nurse (R.N.)
206	Licensed Practical Nurse (LPN)
207	Nursing Aide, Orderly or Attendant (incl. Psychiatric Aide)
	Therapy and Rehabilitation
208	Occupational Therapist
209	Occupational Therapy Assistant
210	Physical Therapist
212	Respiratory (Inhalation) Therapist
213	Speech Pathologist, Audiologist or Speech and Hearing Clinician
	Other Medical and Health Related Occupations
214	Bio-Medical Engineering Technician
153	Dietitian
215	Hospital Adminstrator or Manager
216	Industrial Hygienist
217	Medical Records Administrator
218	Pharmacist

CODE	OCCUPATION
219	Sanitarian
220	Other Medical or Health Related Occupation, Not listed
221	Historian (Not a Teacher)
222	Home Economist (Not a Teacher)
223	Housewife
144	Industrial Illustrator or Commerical Artist
224	Interior Decorator or Designer
	Laboratory Technicians or Assistants (See Technicians and Health Related Occupations)
127	Journalist, Author or Reporter
226	Land Surveyor
227	Lawyer or Judge
228	Librarian
229	Librarian Assistant or Aide
206	Licensed Practical Nurse (LPN). See Health Related Occupations
230	Lineman or Serviceman, Electrical Power or Telephone
231	Machinery Maintenanceman or Millwright
232	Machinist or Machine Shop Related Occupation (Not Sheet Metal Worker)
233	Maid or Housekeeper
234	Mail Carrier
235	Manager, Cafeteria or Restaurant
147	Manager, Computer Operations
215	Manager, Hospital
236	Manager, Hotel, Motel or Apartment House
237	Manager or Supervisor, Industrial
238	Manager, Office
239	Manager, Retail or Wholesale Operations
240	Manager, Other, Not listed
241	Mathematician or Statistician (Not a Teacher)
242	Meatcutter or Butcher
	Mechanics or Repairman (See Automobile or Diesel Mechanic, Technicians or Machinery Maintenanceman)
243	Military, Enlisted; All Services
244	Military, Commissioned Officer; All Services
245	Mining or Petroleum Equipment Operator
246	Musician (Not a Teacher)
	Nurses (See Health Related Occupations)
247	Oceanographer
248	Office Machine Operator
249	Office Machine Repairman
250	Painter or Paper-hanger
218	Pharmacist (See Health Related Occupations)

252	Physicist (Not a Teacher)
253	Pilot, Commerical Aviation
254	Plumber or Pipe-fitter
255	Police or Security Officers (incl. Detective, Guard or Sheriff)
256	Printer, Pressman or Related Occupations
124	Production or Assembly Worker in Factory
257	Psychologist (Not a Teacher)
258	Public Official or Politician
205	Registered Nurse (R.N.) See Health Related Occupations
	Retail Clerk (See Clerks or Cashiers)

INDIANA HIGH SCHOOL SENIOR QUESTIONNAIRE

I am a senior in ..... High School

PLEASE CHECK (✓) YOUR CHOICE IN EACH OF THE FOLLOWING STATEMENTS
(All replies will be confidential)

1. I am

Male	.....	1 8
Female	.....	2

2. My major area of study (course concentration) is (check only one)

College Preparatory	.....	1 9
Business Education	.....	2
Vocational Education	.....	3
General Education	.....	4
Other	.....	5

3. My high school grade average is closest to (check only one)

A	.....	1 10
B	.....	2
C	.....	3
D	.....	4
Unknown	.....	5

4. The population of the town, city or other place in which I live is (check only one)

Rural — less than 1000	.....	1 11
Between 1000 and 5000	.....	2
Between 5000 and 25,000	.....	3
Between 25,000 and 50,000	.....	4
50,000 or higher	.....	5
Unknown	.....	6

5. The head of my household is (check only one)

Father	.....	1 12
Mother	.....	2
Other	.....	3

6. The occupation of the head of my household is (Refer to list of occupations, List A, on the yellow sheet, and write the code number in this blank) 13-15

If the head of your household is no longer employed (deceased, retired, unemployed or other reason) please enter the code number of their last job.

7. The highest level of education of the head of my household is (check only one)

Less than high school graduate	.....	1 16
High School graduate	.....	2
Some college, but no degree	.....	3
College or University graduate	.....	4
Unknown	.....	5

8. At present my main occupation or career choice after I complete my education or military service is (Refer to list of occupations, List A, on the yellow sheet, and write your choice as a code number in the blank) 17-19

9. My present occupation or career choice and educational plans are (check only one)

Quite definite	.....	1 20
Almost definite	.....	2
Indefinite	.....	3

Please turn page and continue

10. I had my first interest in my chosen occupation or career while in
(check only one)

Elementary grades (1-6)	.....	1 21
Junior High grades (7-8)	.....	2
High School Freshman	.....	3
High School Sophomore	.....	4
High School Junior	.....	5
High School Senior	.....	6

11. I decided on my chosen occupation or career in
(check only one)

Remember your decision occurs after you become interested in an occupation.

Elementary grades (1-6)	.....	1 22
Junior High grades (7-8)	.....	2
High School Freshman	.....	3
High School Sophomore	.....	4
High School Junior	.....	5
High School Senior	.....	6

12. The two most important reasons for my chosen occupation or career are (check the most important reason, then check the second most important reason)

	1ST MOST IMPORTANT (Check only one)		2ND MOST IMPORTANT (Check only one)	
Activities on the job	.....	1 23	.....	1 24
Friends' opinion of job	.....	2	.....	2
Kinds of people I'll work with	.....	3	.....	3
Like to work indoors	.....	4	.....	4
Like to work outdoors	.....	5	.....	5
Money	.....	6	.....	6
Parents' opinion of job	.....	7	.....	7
Status or prestige of job	.....	8	.....	8
Serving society	.....	9	.....	9

13. The following sources or persons have been the most helpful and second most helpful in making my career choice

	1ST MOST HELPFUL (Check only one)		2ND MOST HELPFUL (Check only one)	
Parents or other relatives	.....	01 25-26	.....	01 27-28
Friends	.....	02	.....	02
High school teachers	.....	03	.....	03
School guidance counselor	.....	04	.....	04
School programs, (e.g. career development activities)	.....	05	.....	05
Printed materials (brochures, pamphlets, etc.)	.....	06	.....	06
TV and radio	.....	07	.....	07
Previous work experience	.....	08	.....	08
High school courses	.....	09	.....	09
Career information system (Such as; micro-film, computer, or other)	.....	10	.....	10
Other _____ (Please specify)	.....	11	.....	11

14. I hope to be employed
(check only one)

In my city or county	.....	1 29
Elsewhere in Indiana	.....	2
Outside of Indiana	.....	3
No preference	.....	4

15. I am

Black	.....	1 30
Caucasian (White)	.....	2
Spanish-American	.....	3
Other	.....	4

16. Within six months after I graduate, I plan to (check only one)

Work at a full-time job, no further education planned at this time	.....	1	31
Work at a full-time job first, then further my education	.....	2	
Continue my education full-time	.....	3	
Go to school part-time, work part-time	.....	4	
Go into military service	.....	5	
Get married, no further education planned at this time	.....	6	
Get married first, then further my education	.....	7	
I don't know	.....	8	
Other _____ (please describe)	.....	9	

IMPORTANT. Please read this before continuing.

If you have no plans at this time to continue your education, (going on with school) within six months after graduation from high school, please complete question 17 and then turn in the questionnaire.

If you plan to delay the continuation of your education for six months or longer after graduation, please skip question 17 and complete question 18, then turn in the questionnaire.

If you do plan to continue your education within 6 months after graduation, please skip questions 17 and 18 and go directly to question 19 on the next page and complete the remaining items.

Complete this question only if you do NOT plan to continue your education upon graduation from high school.

17. I do not plan to enroll in an educational program after graduation because (check only the most important one)

I plan to look for a job	.....	1	32
I already have a job arranged	.....	2	
I plan to get married	.....	3	
I am not interested at this time	.....	4	
I am going into military service	.....	5	
I am undecided what to do	.....	6	
My grades are low	.....	7	
There's no local school that I want	.....	8	
I don't have enough money	.....	9	

→ 17.a If you indicated that not having enough money was the most important reason for not continuing your education, which of the following sources of financial aid do you know about? (check every one that you know about)

Grant or scholarship from the State Scholarship Commission of Indiana	.....	33
Basic Educational Opportunity Grant	.....	34
Grant Scholarship or Loan from Educational Institution	.....	35
Educational Loan from bank or lending institution	.....	36
I do not know about any sources of financial aid	.....	37
ROTC Scholarship	.....	38
Aid from a private sponsor, such as parent's employer, local service clubs, foundations, etc.	.....	39
Other	.....	40

If you answered question 17 or 17a, you have completed your part of this survey; please hand in your questionnaire. Thank you for participating! We extend our best wishes for your future.

Complete this question only if you plan to DELAY continuing your education for six months or longer after graduation.

18. I plan to delay continuing my education to some later date because (check only the most important one)

I want to earn some money first	.....	1	41
I want to gain some work experience	.....	2	
I want more time to decide what to do	.....	3	
I want to go into military service first	.....	4	
I want to get married first	.....	5	
Other _____ (Write in)	.....	6	

If you answered question 18, you have completed your part of this survey; please hand in your questionnaire. Thank you for participating! We extend our best wishes for your future.

Complete question 19 and all remaining items if you plan to continue your training or education within six months after graduation.

19. If you plan to attend a college or university in Indiana, use List B, Colleges and Universities in Indiana, on the yellow sheet and write in your choice as a code number in this blank 42-43

20. If you plan to attend an institution other than those indicated on List B, check your choice of the following

College or university out of state	.....	1	44
Business school in Indiana	.....	2	
Business school out of state	.....	3	
Other vocational school in Indiana	.....	4	
Other vocational school out of state	.....	5	
Trade apprenticeship program	.....	6	
Other _____ (Write in)	.....	7	

21. If you plan to continue your education, refer to List C, Education and Training Programs, on the yellow sheet and indicate your program choice as a code number 45-46

22. If vocational and technical training programs not now available in my community were made available, I would enroll in (Refer to List C, and write your choice as a code number) Leave this question blank if it does not apply. 47-48

23. If you plan to attend college, are you considering any graduate or professional training after you complete your undergraduate college work?

Yes	.....	1	49
No	.....	2	

24. My selection of a school for vocational or professional training is based upon (check the most important reason, then check the second most important reason)

	1ST MOST IMPORTANT (Check only one)			2ND MOST IMPORTANT (Check only one)		
Location near home	.....	1	50	.....	1	51
Friends or classmates plan to attend	.....	2		.....	2	
Amount of tuition	.....	3		.....	3	
Size of school	.....	4		.....	4	
Offer what I want to study	.....	5		.....	5	
Counselor or teacher suggestion	.....	6		.....	6	
Preference of parent or relative	.....	7		.....	7	
Reputation or prestige of school	.....	8		.....	8	
Other reason	.....	9		.....	9	

25. The school in which I plan to enroll is located (check only one)

In my city or county	.....	1	52
Within 25 miles, but outside my home city or county	.....	2	
Elsewhere in Indiana	.....	3	
Outside of Indiana	.....	4	
Haven't decided yet	.....	5	

26. I plan to finance my education through (check each one that applies)

Personal savings	.....	53
Parents or family support	.....	54
Loan from the educational institution	.....	55
Loan from a bank or other source	.....	56
Part-time employment while at school	.....	57
Full-time employment during summer months	.....	58
Scholarship or grants	.....	59
Unknown	.....	60
Other _____ (Write in)	.....	61

Retain yellow reference lists for your own use and return this questionnaire to:

Prof. J. P. Lisack
Purdue University, SCC-A
W. Lafayette, Ind. 47907

THANK YOU! We extend our best wishes for your future.
